Committee of Planning Librarians EXCHANGE BIBLIOGRAPHY 12

University of Illinois list no. 5 November 1959

CENTRAL BUSINESS DISTRICTS

Mary Vance, Librarian, City Planning and Landscape Architecture Library, University of Illinois

This bibliography has been prepared for use in a Graduate Seminar on the CBD to be given by Professor William I. Goodman at the University of Illinois Department of City Planning and Landscape Architecture spring, 1960. The class will include students in planning, sociology, geography and economics.

Because of the length of the bibliography, general references are omitted in favor of specific references. Much material on the CBD is currently being published, and a supplement to this bibliography is planned for June, 1960, to list current publications and additional references that Professor Goodman and the students find useful during their seminar studies.

CONTENTS

I. General
II. Topical
    1. Bibliography
    2. Design
    3. Open spaces:
        a. Malls
        b. Plazas
    4. Land use
    5. Land values
    6. Population
    7. Promotion
    8. Impact of decentralization
    9. Circulation
        a. Transportation
        b. Transit
        c. Parking
        d. Traffic
    10. Urban redevelopment
    11. New towns
    12. Public buildings
III. Case studies
